Work Needed:

Pool Size \_\_\_\_\_ X \_\_\_\_\_  
 Liner age: \_\_\_\_\_  
 Total water loss/24 hrs: \_\_\_\_\_  
 Low pt. water dropped: \_\_\_\_\_

**Required Release for Above Ground Pools.** Some above ground pool liners develop extensive "pin holes" which can cover wide areas of the pool bottom. Dosil's Underwater Services will do what we can for these liners, but we cannot patch the whole pool. It has been our experience that once pin holes start, they will continue and the liner should be replaced. In addition, Dosil's Underwater Services is not responsible for any mishap, property damage, including the liner, or otherwise that might occur in the servicing and repair of the pool. By signing this release, you agree with these conditions.

X

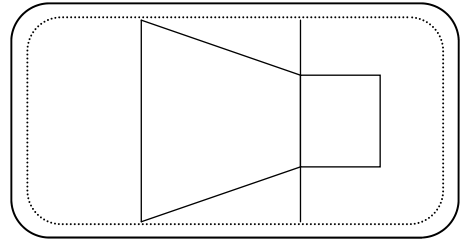

- Pool is filled, level maintained
- Water is clear
- Pool is bottom vacuumed
- The gate is unlocked"
- Pool is currently winterized

*Below is for Dosil's Use only*

**Service Report**

- Complete Inspection Done     Visual     Electronic
- No Leak Found     Filter Area Ok
- Leak Found    Total # of Holes Patched \_\_\_\_\_
- Shape & #     Pin     Crescent     Seam     Slice \_\_\_\_ins.
- Plugged Main Drain     Needs New Liner     Epoxied Skimmer

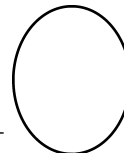

- Addl problems:     Needs follow up due to:
- Pool Dirty or No Visibility
  - Gate Locked/No Entry
  - Extreme Patchwork Needed
  - Material Not Available
  - Other \_\_\_\_\_
